

ANEDEN GIVES GRANT PROCESS FAMILY INCOME LIMITS

The ANEDEN Gives Grant Process enforces a maximum annual combined income per family based on location. The following maximum limits are enforced for the cities the grant is available in:

1. Houston, Texas Grant, through the [Houston Fertility Institute](#) - \$100,000.
2. Seattle, Washington Grant, through [Pacific NW Fertility](#) - \$150,000

If you have any questions about this process, please email us at apply@anedengives.com.

During the Pre-Selection phase of the ANEDEN Gives Grant Process, the applicant must be able to show that their combined family income is below the maximum limits using **adjusted gross income** in the most recent tax returns for the entire family ([IRS Tax Form 1040](#)). The Adjusted Gross Income is on Line 8b of the 2019 Tax 1040 or Line 11 of the 2020 Tax 1040.
